QUOTATIONS IN WALL STREET

Thursday One of the Dullest in Weeks on New York 'Change.

Sales in Only Four Stocks Exceeded 10,000 Shares-Indianapolis Cereals Showing More Activity.

At New York, yesterday, money on call was easy at 3@4 per cent, the last loan being at 3, closing offered at 3.

Prime mercantile paper, 74 @12 per cent, Sterling exchange was steady, with actual business in bankers' bills at \$4.85@ 4.85% for demand, and \$4.82@4.82% for eixty days. Posted rates, \$4.88@4.86. Commercial bille, \$4.51@4.8112.

Silver certificates offered at 74c. Bar silver closed at 73%c per cunce; Mexican

dollars at 59c.

Thursday was one of the dullest on the New York Stock Exchange in many weeks, the sales of only four stocks exceeding ten thousand shares. The market was almost entirely in the hands of professionals, the outside buying being on a very small scale. To a certain extent the recent heavy advance in prices in which nearly the entire list participated has been due to the discounting of favorable indications, chief among which is to be counted the settlement of the silver question on the lines proposed by the administration. The delay in reaching a conclusion in the Senate is having the effect of creating an impression that the question may not be so easy of solution as was supposed, and that the disturbing elements, while unable to defeat the Sherman act repeal bill, may possibly manage to weigh it down with ill-advised amendlents calculated to unsettle the monetar situation. The difficulty in bringing the silver Senators to a realization of the importance of immediate action growing in influence on the speculation upon 'Change, and the belief increasing in that feature of the market depends largely on the course of events at Washington. Among the special influences at work to-day on 'Change were the disagreement between the distilling company and the distributing company, the Boston selling of Union Pacific on the belief that the stock of the late F. L. Ames

would be put on the market, reports that the June statement of Union Pacific, to be given out to-morrow, would make a very bad showing, the absence of large orders from London that were expected to follow the reduction of the Bank of England discount rate and selling orders from the West in Chicago Gas. So sluggish was the trading, however, that the declines were not very serious, and prices moved one way or the other in a sort of perfunctory way. The dealings, too, were very irregular and stocks moved independently of each other. At the opening a generally firm tone prevailed, but depression followed, which was succeeded before noon by an upward movement of small proportions. During the afternoon, upon very light trading, prices reacted, and the final dealings were weak, although there was a practical recovery just at the close. Evansville & Terre Haute lost 14.

in the railroad bond market inactivity was the chief feature, but the tone was more active than for the share market. Richmond Terminal securities were notably strong and active. Government bonds were weak and State bonds were without movement. Closing quotations were:

Four per cent, reg.110 | Louis. & Nash... 5514 Four per ct. conp..111 | L. & New Albany. 1514 Pacific 6's of '95...102 | Missouri Pacific.. 2614

LCCAL GRAIN AND PRODUCE.

Trade Fair, with Steadiness in Prices o Characteristic of the Trading.

In most departments the wholesale men speak of trade as being fully up to their expectations when the general conditions are considered. The steady tone to prices is another feature of the situation. Collections are improving, and the tenor of the remarks of business men generally is more cheering. In prices there were but few from 75c to \$2 per bushel. Sweet potatoes are in large supply and selling low for so early in the season. Irish potatoes are in fair supply, but firm at quotations. In dry goods and most staple groceries firmer, and, in fact, higher prices are indicated. Coffees, roasted grades, advance &c.

The local grain market is more active. the firm and advancing tope to prices of both wheat and corn having increased the interest in the cereals. Track bids yesterday ruled as follows:

WHEAT LOST ANOTHER CENT

Cash Demand Fell Offand Wednesday's Decline Continued.

Other Chicago Cereals Were Weak in Sympathy-Provisions Underwent Only Slight Changes.

CHICAGO, Sept. 14.-With heavier receipts in eight the bulls in wheat and corn sold freely, to-day, and prices tumbled. The cash demand did not keep up. Compared with last night, both wheat and corn show a loss of nearly 1c a bushel. Provisions were in little demand at irregular and slight changes. Wheat, at the opening, was about 'so higher than the closing figures yesterday, advanced about %c, then became weak, and, after numerous fluctuations, declined 1'sc. held steady, and the closing was easy at about 'se from the bottom. The recent rain has been favorable for plowing and seeding and the receipts in the Northwest were heavy. The impression is gaining ground that the crop of spring wheat has been underestimated. There was some buying on the declines, but it was not general.

Corn opened & @ We higher and advanced %c more on moderate buying orders from outside and light local offerings. Later the prices receded 1/2c, rallied again, ruled 1/8 @140 lower and closed with 40 1c loss. While it is thought the late rains will not change the position of the crop much it will undoubtedly help pasturage.

Oats were quiet and slightly firmer early, but the weakness in other pits affected oats, prices receding 4 @ 780. With the decline there was more business, but the market closed quiet with a net loss of & @ 4c. The day in the provision pit failed to clearly indicate any well-defined policy on the part of the rulers of trade. Lard was rather firmer than the other articles, and closed at some improvement for the near

futures, but unchanged for January. Pork

for January is 50 lower than it closed yes-

sterday; for October it is 200 higher. Ribs

.100 lower for September, .150 off for October and .0212c higher for January. The demand for vessel room was fair and rates steady at 14c for wheat and 14c for corn to Buffalo. Estimated receipts for to-morrow are: Wheat, 149 cars; corn, 650

Dry Goods.

NEW YORK, Sept. 14 .- Practically all interest in the dry-goods market to-day was centered in the great sale of Amoskeag mills. Other goods were comparatively neglected. Staple cotton goods are in fair request and steady. Printed fabrics and prints are in fair demand. Renewed inquiry is shown for ginghams and woven fabrics. Dealings in woolen goods are increasing somewhat, but the demand seems to be running in small lots with the disposition to do very little excepting to replenish stocks. Foreign dry goods show a better demand with the tone fairly steady. Woolen and worsted goods are in better request. Jobbers are some-what more active as a whole, although taking it right through the market the quantity of business transacted to-day was much hampered by the great auction sale.

The Cleveland Baby's Bad Luck.

It is a bit rough on the second baby Cleveland to be a girl. Think what a "snap" it would have been for her to have been a boy. Why, talk about being born with a silver spoon in one's month! To be born in the White House and be born a boy is to be born with the country in one's prospective trousers' pockets.

THE

INDIANAPOLIS JOURNAL

DAILY.

SUNDAY

AND

WEEKLY

The Journal's price for daily is only 15 cents a week, and it has a very wide circulation, reaching a large number of people hitherto unable to afford the luxury of a first-class daily paper. Reports from agents and subscribers indicate a continued increase, and that what used to be regarded as a luxury has become a necessity. The new readers not only remain, but they are constantly increasing.

It is the purpose of the Journal to make itself even more indispensable to its patrons, new and old, and to still further widen its field. To this end it will not only endeavor to maintain the characteristics which have established its reputation as by far the best newspaper in Indiana, but will add such new features and improvements from time to time as are in accord with journalistic progress and that may tend to the advantage of its readers. It will, for example, give increased attention to State and local interests. What Indianians want is a paper in which Indiana affairs are given especial prominence andimportance. This want the Journal has always supplied as no other paper published outside or inside the State is able to do; but the rapidly developing industries and business and social enterprises of the community call for additional consideration and space, With this in view its corps of correspondents has been increased until ithas a representative in nearly every town in the State Special traveling correspondents will visit the news centers of the State at frequent intervals, thus insuring the "write up" of every important event or matter of general interest.

Being published in the geographical center of Indiana the Journal is afforded unusual facilities for securing news promptly, and, what is of greater cousequence, is able to reach its subscribers without delay. The ruuning of morning trains from Indianapolis is very favorable to the early distribution of papers sent by mail or express, and in most towns within a radius of a hundred miles Journals are delivered as early as in the city where they are printed. In the more remote counties there is but little loss of time in transportation.

The Journal is the paper for Indi-

anians and particularly for Indiana

Republicans. The change of administration involves the settlement of political problems likely to be of the most direct personal concern to every farmer and business man in the State. All such matters will be set forth in detail, the Journal's Washington correspondent being instructed to give especial attention to every hing having a possible bearing on Indiana interests. But though the Journal is Republican in politics it is non-partisan in the publication of news. Its constantendeavor is to secure facts unbiased by prejudice and to make its columns trustworthy records of each day's happenings. A large editorial force supplements the

work of the press associations and the

correspondents, and furnishes careful

supervision for each department. The Sunday Journal has a well-established literary character, superior to that of any Western paper. It is not defaced by "plate matter" nor filled with a heterogeneous mass of syndicate literature, but its contributions and miscellany are chosen with a view to their special fitness and adaptability to the tastes of the readers. The reading matter in any given number of the Sunday Journal is equal in quantity and is not inferior in quality to that found in the leading magazines. As an educational adjunct and a source of entertainment the Sunday Journal is indispensable in every well-regulated family.

The Weekly Journal, at \$1 per year, contains more reading matter than can be obtained for the money in any other shape. It is carefully edited and offers the news of the week in condensed shape and a variety of miscellany, agricultural and household literature that render it one of the best investments that any family can make. Try it and see. It has a large circulation in this and other States and agents find it an easy matter to secure large lists of subscribers. Special inducements orfered to agents.
